

Data Collection, Analysis, & Distribution Workgroup

Objective

Enable the SC Department of Public Health to improve the collection, analysis, and application of state-level data on maternal mortality, morbidity, and associated drivers

Proposed Strategies

Support and expand capacity for SCMMMRC Nurse Abstractors*

Support the data collection and reporting efforts of community-based initiatives*

Improve web and print resources for providers, communities, and birthing persons aiming to improve maternal health outcomes, guided by data-driven insights*

Develop a mobile maternal health literacy application that highlights data at the local level*

Develop and disseminate maternal health information at differing levels of geographical units*

*initiative currently supported by MHI funds
