

SC Maternal Health Task Force
Maternal Health Service Delivery Work Group

Objective

Improve access to, delivery, and quality of maternal and perinatal health services

Proposed Strategies

Support non-traditional partnerships to enhance the dissemination of knowledge about maternal health warning signs

Expand behavioral health services through telehealth or mobile health initiatives

Support language equity through the expansion and improvement of translation services

Develop a low-fidelity SimCOACH™ curriculum focused on obstetric emergencies and maternal health care*

Provide simulation-based training for emergency department staff and personnel at non-birthing hospitals*

*initiative currently supported by MHI funds
